

**FOR PROFESSIONAL USE ONLY**

SPEC DATA SHEET

PLUS is a degreaser for use with a pressure washer which removes thick grease from heavy equipment and rolling stock. The PLUS product is designed to enable the user to remove soils from paint without brushing or resorting to high pressure application. Cold water rinsing works better than hot water. With a thorough rinse, PLUS leaves no film or water spots on glass.

ADVANTAGES

- Safe on paint
- Cleans pressure washers coils when used with hot water
- High dilutions
- No hazardous ingredients

LIMITATIONS

- Not safe for polished aluminum at normal strength
- Product effectiveness limited if frozen

TECHNICAL DATA

Appearance & Odor:	Light amber, mild odor
Physical State:	Liquid.
pH:	12
Vapor Pressure (mmHg):	N.A.
Vapor Density (air=1):	N.A.
Boiling Point:	212° F
Freezing/Melting Point:	N.A.
Specific Gravity (water=1):	1.090
Evaporation Rate:	As water.
Solubility in water:	Complete.

SURFACE & AIR TEMPERATURES

Excessively high or low temperatures will produce poor results and possible harm. Best cleaning results are obtained when air and surface temperatures are 40° Fahrenheit or above. Do not clean when temperatures are below freezing or will be overnight. If freezing conditions exist, allow adequate time for surface to thaw. If air temperatures exceed 90° Fahrenheit, flash cool the surface with water before applying product. Do not allow products to dry on the surface. Always rinse thoroughly while still wet.

PRE-TESTING

Always test prior to beginning full-scale cleaning

operations. Testing should confirm cleaning effectiveness on each type of surface and stain designated to be removed. Testing also determines the desired dwell time and any potential for adverse reactions with adjacent materials. Allow test panels to dry thoroughly before evaluating final appearance and results.

DILUTION

- 15:1 to 30:1 for degreasing trucks and heavy equipment.
- 20:1 to 50:1 for brushless truck washing.
- 100:1 for cleaning with brush (1 gallon water to 4oz of PLUS)

NOTE: Dilutions will vary based on the severity of the stain and type of surface.

APPLICATION INSTRUCTIONS

Apply using a pressure washer up or down stream or a low pressure spray applicator. Craftsmanship determines the appropriate pressures for rinsing. A thorough rinse job is always recommended, however, our chemistry never requires flooding a wall. Pressures that mark or damage the surface should be avoided. When in doubt, follow the manufacturers recommended P.S.I. for the substrate on which you are working. If high pressure is not available, rinse with a garden hose. Always rinse while wet.

SAFETY INFORMATION

Precautionary Measures: Always wear goggles and rubber gloves when handling this product. Keep off of skin and clothing. If material comes in contact with clothing, wash before reuse. Do not get in eyes, on skin or clothing. Keep container closed when not in use. Do not allow product to freeze. Do not remove label. Read Material Safety Data Sheets for additional safety and health hazard information prior to use.

SPILL OR LEAK PROCEDURES

Check with the state, local, or federal regulations for waste disposal methods in the area. Wear proper protective equipment while doing cleanup. For large spills, dike and contain for intended use. For small spills, use a chemical absorbent product and place in approved container for disposal.

FOR PROFESSIONAL USE ONLY

SPEC DATA SHEET

CONTAINER HANDLING/STORAGE

Store the product in a cool, dry place. Vent bung cap before opening. Keep container tightly closed when not in use. Do not use pressure to empty container. Wash thoroughly after handling. Do not use container as dilution or rinsing vessel. Do not cut, grind or weld on or near container. Empty containers retain residue and must be handled as if full.

INSTRUCTIONS IN CASE OF CONTACT OR EXPOSURE

Eyes: Flood with water for 15 minutes. If irritation develops, seek medical attention.

Skin: Wash off with soap and water. Follow with a good emollient. If irritation develops, seek medical attention.

Ingestion: Drink lots of water to dilute. Do not induce vomiting. Seek immediate medical attention.

Inhalation: Move to fresh air. If irritation develops, seek medical attention.

NOTICE

This product has been classified in accordance with the hazard criteria of the CFR.

DISCLAIMER

The information herein is given in good faith, but no warranty, either expressed or implied is made. Final determination of the suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot be sure or guarantee these are the only hazards which exist.

CUSTOMER SERVICE

Factory personnel are available for assistance Monday through Friday from 8am to 5pm EST at (724) 656-1055. Questions can also be sent to info@eacochem.com. A reply can be expected by the following business day or FaceTime and Call from the Wall is available while on jobsite.
